## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 – 40 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The parallel subject matter paths are critical or essential to the practice of the invention, but not included in the claim(s) or is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). The parallel subject matter paths are not found in the detailed description of the invention. It is only found in the Summary of the Invention and in some of the claims.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 – 40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically, the parallel subject matter paths are not found in the Detailed Description section of the Disclosure and therefore the examiner must guess as to Applicants' intention.

Because of the 112 problems a proper search could not be conducted at this time.
